Belyi says:

Check out William Randolph Hearst who saw his massive fortune about to disappear if hemp was used instead of paper.

newensign says:

I know Belyi, it was Hearst who invented the name marijuana so people would not realise it was hemp that was being banned. Ford made a car from hemp and it ran on hemp oil. Under Elizabeth I farmers were fined for not growing hemp but under Elisabeth II were fined if they grew it!

Belyi says:

Well, it’s only a matter of time before it comes back with a bang.

I think Belyi, its already beginning, but as it said in the video it is expensive tool for the manufacture of various by-products of hemp, but it will come!

I know a guy who has MS and grows his own to make CBD oil and take the odd puff. It’s been miraculous for him, pretty well all the others who were diagnosed with him in the mid ’90’s are dead, or crippled, now. He’s still able to just about walk and doesn’t use a wheelchair. His NHS specialist says “whatever you are doing then, keep doing it”

newensign says:

Yes Pete, hemp is a very powerful medicinal plant, the dire warnings if taking it as drug is over the top. people who are adversely affected are taking other drugs as well. Good of your friend growing his own to make CBD oil. BTW MS is another name for polio, because polio vaccine was supposed to have cured the disease! Instead it caused turbo cancer! which they blamed on asbestos!

The Alternative View Presents Roger Anderton

Date: 4 May 2025

Time: 11:00 - 16:00

Location: The Assembly Rooms, Glastonbury, Somerset, UK

“Einstein Wrong and Special Relativity Revisited”

We are told the speed of light cannot be exceeded. What if that is wrong? What if Einstein was wrong and the theory of General Relativity is incorrect? Could that open up a whole new world of possibilities?

In May 2025 The Alternative View returns to Glastonbury where Roger Anderton will be asking those questions and putting forward an exciting new model.

Roger Anderton is from the John Chappell Natural Philosophy Society – a group that was formed on the idea that Einstein’s relativity is wrong (especially special relativity is wrong). In relativity there are many paradoxes (such as twin paradox) which are really contradictions; thus the believers in relativity are talking nonsense. In trying to get this information out to the general public we have found our voice has been mostly blocked.

For first time in UK we are presenting publicly the film Einstein Wrong by David de Hilster which has been prevented from being shown at film festivals. Physics has been corrupted by relativity nonsense.

Event hosted by Gary Fraughen.

The Alternative View Special Event

Date: 28 June 2025

Time: 11:00 - 18:45

Location: The Old Convent, Beeches Green, Stroud, GL5 4AD

“The Undeclared Frequency War on Humanity and the Planet”

On Saturday the 28th June 2025 at the invitation of Project Libertas The Alternative View travels to Gloucestershire for a one day AV Special Event.

We will be bringing together four experienced and knowledgeable speakers who will discuss the current technological assault on the human race and the planet. Among the topics covered will be the rise of AI, 5G, the war on biology, Smart Technology, Geoengineering, Smart Cities, the war on food, full spectrum digital tracking and the weaponization potential of technology sold to us on the promise of an easier and more secure life.

There will be plenty of time to network, share ideas and meet to the speakers.

There will be an evening bar for socializing and chat. Come along and have an interesting day out and mix with like-minded people.

+++ Bonus evening crop circle and para presentation by AV’s very own Matthew Williams. +++
